When a player eliminates another, 50% of the bounty amount (rounded up to the nearest \$25) will be added to their non-value bounty, while the rest will be awarded as a cash prize to the winner. In the case of a split pot, the player closest to the button will receive the larger rounded amount (rounded to the nearest \$25). The prize pool guarantee includes both the traditional prize pool plus the bounty prize pool. The 2 finalists will both receive an equal share of the prize pool, and the winner will be rewarded with the remaining bounties. - **Game Type:** No Limit Hold'em.
- **Starting Stack:** Players start with 30,000 in tournament chips. Pre-purchased stacks will be "live" on the table from the beginning of the tournament. Late registrants and alternates will be sold a full starting stack.
- **Blind Level Length:** Blinds increase every 20 minutes.
- **Players per table:** This is a 9 handed tournament. The final table begins when 10 players remain.

- **Special Rules:** Each player will start with \$100 in non-value bounty chip(s). When a player eliminates another, 50% of the bounty amount (rounded up to the nearest \$25) will be added to their non-value bounty, while the rest will be awarded as a cash prize to the winner. In the case of a split pot, the player closest to the button will receive the larger rounded amount (rounded to the nearest \$25). A player's non-value bounty chip(s) also serves as an all-in chip, meaning that if one is included in any bet or raise the player will be irrevocably all-in. The prize pool guarantee includes both the traditional prize pool plus the bounty prize pool. The 2 finalists will both receive an equal share of the prize pool, and the winner will be rewarded with the remaining bounties. Should there be any discrepancy in terms of the value of the remaining bounties, the floor manager's remaining bounty float amounts will be considered final without recourse.
